

Albany Public Library and Upper Hudson Library System Present

Science Discovery: Unraveling the Science Behind “Fizz, Boom, Read!”

February 12, 2014

9:30 AM - 11:30 AM

(9:00 check-in and networking)

Upper Hudson Library System
28 Essex Street
Albany, NY 12206

Join us for hands-on science! You'll learn about and replicate science experiments that will add zest to library programs from storytimes to tween programs. Experiment, broaden your knowledge, and have fun while gaining practical applications. Ideas for altering programs for different learning environments and accommodating various types of learners will also be part of your take-away.

**Presenters from CNSE Children's Museum
of Science and Technology**

Sarah Fisk

Director of Education and
Museum Experience

Dawn Baldwin

Museum Educator
