

Circulation Advisory Council
February 1, 2017

Present: Philip Berardi (GUIL), Rob Carle (UHLS), Sue Hoadley (WSTR), Debbie LaRose (COLN), Marion Pierson (EGRN), Jedda Ray-Gayle (APL), Michele Reilly (VOOR), Joe Thornton (UHLS)

Library Value print template: The template is finished and available for anyone to use. It prints the estimated value of the checked out items on the patron's checkout receipt. Because we can't access the *Price* field in the item records, Rob assigned prices to Item Types using Amazon's prices as a guide.

Security: Phil asked what others do for security (for theft), inspired by a recently banned patron. His specific question was whether the cost of maintaining security gates is higher than the cost of accepting some loss of material.

- Someone (unnamed here, and a little facetiously) said, "Theft equals weeding."
- Another library turned their gates off two years ago.
- COLN uses lock boxes and self-locking cases for their DVDs.

Miscellaneous: Michele said that VOOR will be doing an inventory this summer.
