

**Circulation Advisory Council  
December 5, 2018**

**Present:** Philip Berardi (GUIL), Rob Carle (UHLS), Sue Hoadley (WSTR), Debbie LaRose (COLN), Carol Melewski (RCSC), Melanie Metzger (APL), Jen Murtha (VOOR), Marion Pierson (EGRN), Robert Sheedy (APL), Sylvia Taylor (BETH), Joe Thornton (UHLS)

**Sierra 4.1:** Joe asked if people have noticed improvements or problems after the November 15 *Sierra* upgrade to version 4.1.

- Sylvia reported a problem with the 'View Canceled Holds' button.
- Rob said we've experienced problems with *Sierra* autonotices hanging. III is required to restart the service when this happens.
- Debbie said there's a problem with the "email to patron" message displaying for every checkout. Rob will look into this.
- Sue said that when you close a *Sierra* session a message displays: "Data has changed. Save?"
- Sue said that when attaching an item a message displays: "Select template."

**eCommerce:** Joe updated the group on the status of the eCommerce module, which went live on 10/1/18. Hundreds of patrons have used and together have paid over \$2,000 online. But there's still a small discrepancy between what *PayPal* reports as collected and what *Sierra* shows as 'fines paid online.' Joe is working with III to identify the cause of this discrepancy and to fix it.

**Status=g:** Phil has been asking and Joe has been not delivering for months a change in *Sierra* that would allow items with status=g to be loanable without an override. Joe promises he'll get this done, if it's doable.

**Next meeting: Wednesday 1/2/2019 at 9:00 at UHLS.**
